

Welcome to

**PLASMOLIFTING
WORLD**

PLASMOLIFTING WORLD

Our mission is to enable healthcare professionals, wherever they are located, to get a handle on an effective and safe treatment method required by thousands of patients.

is a fast-scaling health care company founded in **2003** by a team of biomedical researchers. We focus on developing methods and tools to accelerate body cell and tissue repair and healing.

18

years of
successful work

30 000

health care practitioners
having completed our
training programs

18

patents covering
methods and techniques
of treatment with
autologous blood plasma

10

million Plasmolifting
PRP procedures
performed worldwide

Our products are
available on the
market of **50**
countries across
the world

Starting our scientific and practical activities with the study of autologous blood plasma's therapeutic features, we conceived a new paradigm regarding PRP therapy. We have developed relevant therapeutic protocols used in:

Aesthetic
medicine

Orthopaedics

Dentistry

Gynaecology

Trichology

Urology

Today, **Plasmolifting World** offers a variety of services integrated under the name of Dr Akhmerov's Plasmolifting Technologies.

Plasmolifting PRP Online Academy Training Courses

We propose unique, comprehensive training programs allowing to increase the treatment effectiveness significantly.

- **Renat Akhmerov**, DSc, PhD, **the Plasmolifting PRP technology** developer, **the author of more than 75 research papers** and the owner of several biotechnology patents, has created a comprehensive set of practical and straightforward techniques for using PRP.
- Now they are available to all medical practitioners through our **Plasmolifting PRP Online Academy**.
- Our training courses can help you master all the ins and outs of our method application in various fields of medicine.

Every month, hundreds of medical practitioners from around the globe complete our training programs. They obtain strong theoretical knowledge and excellent practical skills during a training course, thus expanding their services with a new and highly demanded tool.

We have defined **the characteristics of equipment and supplies required** to ensure optimal treatment results.

4

We only use and recommend using the medical consumables and equipment **that meet all the European countries' regulatory compliance requirements for medical device manufacturing and circulation** and all internal technical specifications set by the Plasmolifting PRP method developers on the basis of their knowledge and experience.

The tubes we recommend:

- ⦿ Are suitable for **Plasmolifting PRP** procedures;
- ⦿ Make it possible to change **the platelet concentrations** in both the supernatant plasma and the tissues;
- ⦿ Ensure complete **separation of red blood cells** from blood plasma;
- ⦿ Are **non-toxic** and non-pyrogenic;
- ⦿ Are **easy-to-use**;
- ⦿ **Are made in Italy.**

Plasmolifting GenLife PRP Tubes

with prices that start
at €29.33

- Are made of Pyrex **borosilicate glass** that is highly resistant to chemical attack and has a naturally acquired very low affinity for platelets that makes it possible to maximize the platelet yield;
- Are medium walled, meaning that **its wall is 1.2 mm thick**, and thus the risk of its breakage during centrifugation is eliminated;
- **Contain a specially designed separator gel** that exhibits a proper degree of thixotropy and a specific density necessary to obtain maximum platelet yield and to optimize leukocyte concentration in blood plasma;
- Contain a citrate-based anticoagulant (ACD-A);
- **Are certified as IIb class medical device** in line with the Directive 93/42/EEC and subsequent amendments and additions (Directive 2007/47/CEE).

D-PRP Tubes

with prices that start
at €12.59

- Are made of glass of the 3rd hydrolytic class;
- Contain a high-quality liquid platelet separator that creates a perfect barrier between obtained plasma and red blood cells;
- Contain a citrate-based anticoagulant (ACD-A);
- Are certified as IIa class medical device in line with the Directive 93/42/EEC and subsequent amendments and additions (Directive 2007/47/CEE).

8 Reasons Why Customers Choose Plasmolifting World

6

- Our approach is effective, simple to use, safe, and affordable.
- We share our experiences, findings, and achievements with our partners.
- We propose unique, comprehensive training programs allowing healthcare practitioners to master all the ins and outs of Plasmolifting PRP technology.
- We use various communication channels: you can communicate with us using your preferred messenger.
- We continuously provide assistance and support to healthcare professionals enabling them to improve their skills promptly.

We are committed to delivering to you the highest quality and affordable products made in the EU.

We deliver medical consumables and equipment worldwide. We ship on time.

A worldwide network of long-term distribution partners allows us to be always close to our customers.

We have launched our **online store** for your convenience, allowing you to purchase everything requisite for the Plasmolifting PRP procedures directly from our website.
